Implementation

EXPERIENCE

JUNE 2019 – PRESENT

Partnering Facilitator| Global Leadership Alliance, Inc. (GLA)

Ehab Hasan facilitated multiple infrastructure projects ranging in size between \$10 - \$300M. He also led the implementation of customized PGM software (Project Goals Metrics) that measures project performance against key goals established at the beginning of each project to allow immediate mitigation of any issues that may potentially derail the project

APRIL 2012 – NOVEMBER 2014

Project Manager| Besix (Belhasa Six Construct LLC)

Ehab Hasan was the Liaison and Project Engineer for the 1+ billion-dollar Tram Project in Dubai. He was in charge of close coordination with government authorities, private stakeholders, and design subcontractors in obtaining permits and approvals (NOCs) for various works done on site to ensure a continuous, and uninterrupted construction and workflow. His largest attribute is in coordination and construction support, management, or utility diversions for track construction. Dispute resolution, as well as dispute prevention, with the many private entities and government authorities is what earned Ehab Hasan many distinctions, awards, and recognition, so much so, he decided to pursue a master's degree in Dispute Resolution.
